ABOUT US

Premium Indian produce, prepared for the world

Kunshak Exports is a premium agricultural export company specializing in the sourcing, processing and international trade of high-quality seeds, spices and pulses including Nigella, Cumin, Coriander, Fenugreek, Sesame, Mustard, Flaxseed, Chickpeas and Soybean.

Founded in 2026 by Satish Saini (Founder) and Amit Saini (Co-Founder), the company was built with a clear purpose: to position India's finest agricultural produce on the global stage through uncompromising quality, transparency and reliability. Every consignment is sourced directly from trusted farms and mandis, cleaned and graded to export standards, and prepared for on-time delivery to clients around the world.

-
- ✓ Direct sourcing from farms & mandis
 - ✓ On-time, reliable global delivery
 - ✓ Hygienic, export-standard packaging
 - ✓ Transparent, competitive pricing
 - ✓ Special focus on purity & premium grading

Nigella Seeds (Kalonji / Black Cumin)

Nigella sativa • Rajasthan, Madhya Pradesh, Uttar Pradesh & Gujarat

- ✓ Small, jet-black seeds with a sharp, peppery-nutty flavour
- ✓ Available machine-cleaned and Sortex-cleaned up to 99.95% purity
- ✓ Naturally rich in thymoquinone — valued in food, Ayurveda & Unani preparations
- ✓ Used in bakery toppings, pickles, spice blends and health/wellness products
- ✓ Long shelf life; hygienically sorted and export-packed

Cumin Seeds (Jeera)

Cuminum cyminum • Gujarat & Rajasthan (Unjha belt)

- ✓ One of India's largest spice exports; strong, warm, earthy aroma
- ✓ Export grades available: Singapore Quality (98–99%) and Europe Quality (99–99.5%)
- ✓ Machine cleaned & Sortex processed; moisture controlled below 9–10%
- ✓ Core ingredient in curry powders, spice blends and seasoning globally
- ✓ High demand across the Middle East, USA, Europe, China and Bangladesh

Coriander Seeds (Dhania)

Coriandrum sativum • Rajasthan, Gujarat & Madhya Pradesh

- ✓ Warm, citrusy-nutty flavour; a foundation spice in every masala blend
- ✓ Supplied in Eagle, Scooter and Single Parrot export grades
- ✓ Purity 98% minimum, moisture 8% max, low split/foreign-matter content
- ✓ Available whole, split (dhaniya dal) or as cool-ground powder
- ✓ Used in curries, bakery, meat processing and spice-blend manufacturing

Fenugreek Seeds (Methi Dana)

Trigonella foenum-graecum • Rajasthan (Kota–Jhalawar belt) & Gujarat

- ✓ Small, hard, yellowish-brown seeds with a bittersweet, maple-like aroma
- ✓ Export purity of 99% minimum; moisture capped at 10%
- ✓ Sortex/machine cleaned; bold and split grades available on request
- ✓ Used in spice blends, pickles, curries, nutraceuticals and animal feed
- ✓ Growing pharma/nutraceutical demand for its diosgenin and fibre content

Sesame Seeds (Til)

Sesamum indicum • Gujarat & Rajasthan

- ✓ Available in natural white, hulled white (up to 99.9% purity) and black varieties
- ✓ Sortex-cleaned for uniform size, colour and minimal foreign matter
- ✓ Used in bakery, tahini, confectionery, seasoning and oil extraction
- ✓ Strong global demand from China, South Korea, Japan, the Middle East and Europe
- ✓ Steam-sterilised / lab-tested options available for strict food-safety markets

Mustard Seeds (Rai)

Brassica juncea / Brassica nigra • Rajasthan, Uttar Pradesh & Haryana

- ✓ Available in black/brown and yellow varieties, sized 1–2mm
- ✓ Sharp, pungent flavour — essential to Indian tempering (tadka) and pickling
- ✓ Naturally antimicrobial, giving pickles and preserves a longer shelf life
- ✓ Used in spice blends, condiments, marinades and mustard-oil extraction
- ✓ Cleaned and graded for uniform colour and size before export packing

Flaxseed / Linseed (Alsi)

Linum usitatissimum • Madhya Pradesh, Maharashtra & Rajasthan

- ✓ Small, oval, shiny seeds available in brown and golden-yellow varieties
- ✓ Rich source of Omega-3 fatty acids, dietary fibre and lignans
- ✓ Growing global demand as a functional-food and nutraceutical ingredient
- ✓ Used in bakery, health foods, breakfast blends and cold-pressed oil extraction
- ✓ Cleaned, graded and moisture-controlled for long-distance shipping

Kabuli Chana (White Chickpeas)

Cicer arietinum • Madhya Pradesh, Maharashtra & Rajasthan

- ✓ Large, cream-coloured, smooth-skinned beans with a creamy cooked texture
- ✓ Graded precisely by size — 7mm to 12mm+, including premium "Dollar" jumbo grades
- ✓ Sortex-cleaned and free from stones, broken grain and foreign matter
- ✓ The global standard for hummus, falafel, canning and retail packs
- ✓ Non-GMO; supplied to strict international food-safety specifications

Desi Chana (Bengal Gram)

Cicer arietinum • Madhya Pradesh, Rajasthan & Maharashtra

- ✓ Smaller, brown/tan seeds with a rough coat and nutty flavour
- ✓ High in protein and dietary fibre; a staple pulse across South Asia
- ✓ Machine cleaned and graded for size, colour and purity
- ✓ Used for chana dal, besan (chickpea flour), snacks and traditional dishes
- ✓ Reliable bulk availability with consistent quality across crop seasons

Soybean

Glycine max • Madhya Pradesh, Maharashtra & Rajasthan

- ✓ Predominantly non-GMO – a key advantage for EU, Japanese and other strict markets
- ✓ Food-grade and feed-grade lots available, sorted and quality-graded
- ✓ Used for oil extraction, soy meal, tofu, soy milk and animal feed
- ✓ Rising demand from Vietnam, Japan, the UAE and Europe for traceable, non-GMO supply
- ✓ Sourced from India's core soybean belt for consistent, season-on-season quality
